Monobloc Plus

The new regulation system is simpler and simultaneously much stronger, perfect for Lanzarote's climate...

With reduced dimensions when closed, the Monobloc can reach extensions of up to 3m

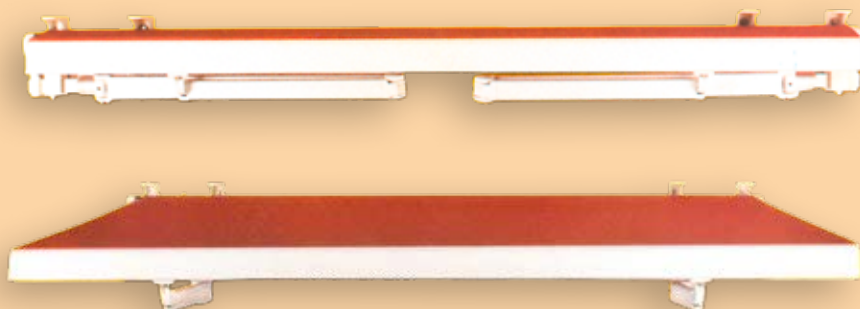

The techno arm assures the tenseness of the canvas in each position of the awning, offering in addition an elegant and new aesthetic outlook

Soltex only uses guaranteed and accredited materials of premium quality in the EU, stainless steel screwing and aluminium profiles laquered under the Qualicoat standard

Force & Beauty

This system, mounted on a cross section of aluminium bar of 40x40x3 allows the fitting of installations with large dimensions, increasing the assembly possibilities and reducing maintenance
