Tecno (Super)

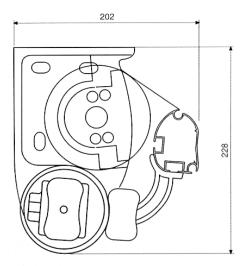

Mounted with stainless steel components(chain, pivots, screws etc) and strengthened profiles secures the systems robustness

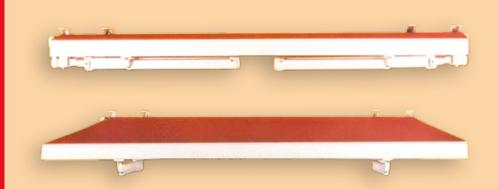

The arm ensures an even material tension in every position, offering an elegant and modern solution.

The Tecno arm has been created for our most demanding customers. We offer a solution that is both robust and hard-wearing

Safe & Hard wearing

Hi-tech system letting you confide in the security of the stainless chain link, but with a new interior system design making the Super Tecno a much more elegant combination. This system can reach extensions of up to 3m.
